# Building the AI-driven Enterprise

Implementation in the overview and supervision of the speakers was exemplary.

*Mr. Mütze, Coordinator of Prof. Nyhuis*

The CDO Aachen 2024 – Convention on Digital Opportunities – is a specialist conference and conveys valuable ideas, experiences and solutions relating to digital technologies and potentials in a balanced mixture of top-class lectures from practice and science.

It sees itself as an impulse generator for building up important capabilities in the company through modern information management and creating optimal conditions for above-average results in the long term.

Data and its use are increasingly becoming the focus of manufacturing companies, but dealing with it profitably poses many challenges. At CDO Aachen 2024, you will learn how data can shape and control the direction of companies and their business models.

**Digital.**

**Free of Charge.**

CDO Aachen 2024 will take place in a purely digital format, is free of charge for participants and will be in English.

2024**

# The Event at a Glance

## The Symposium

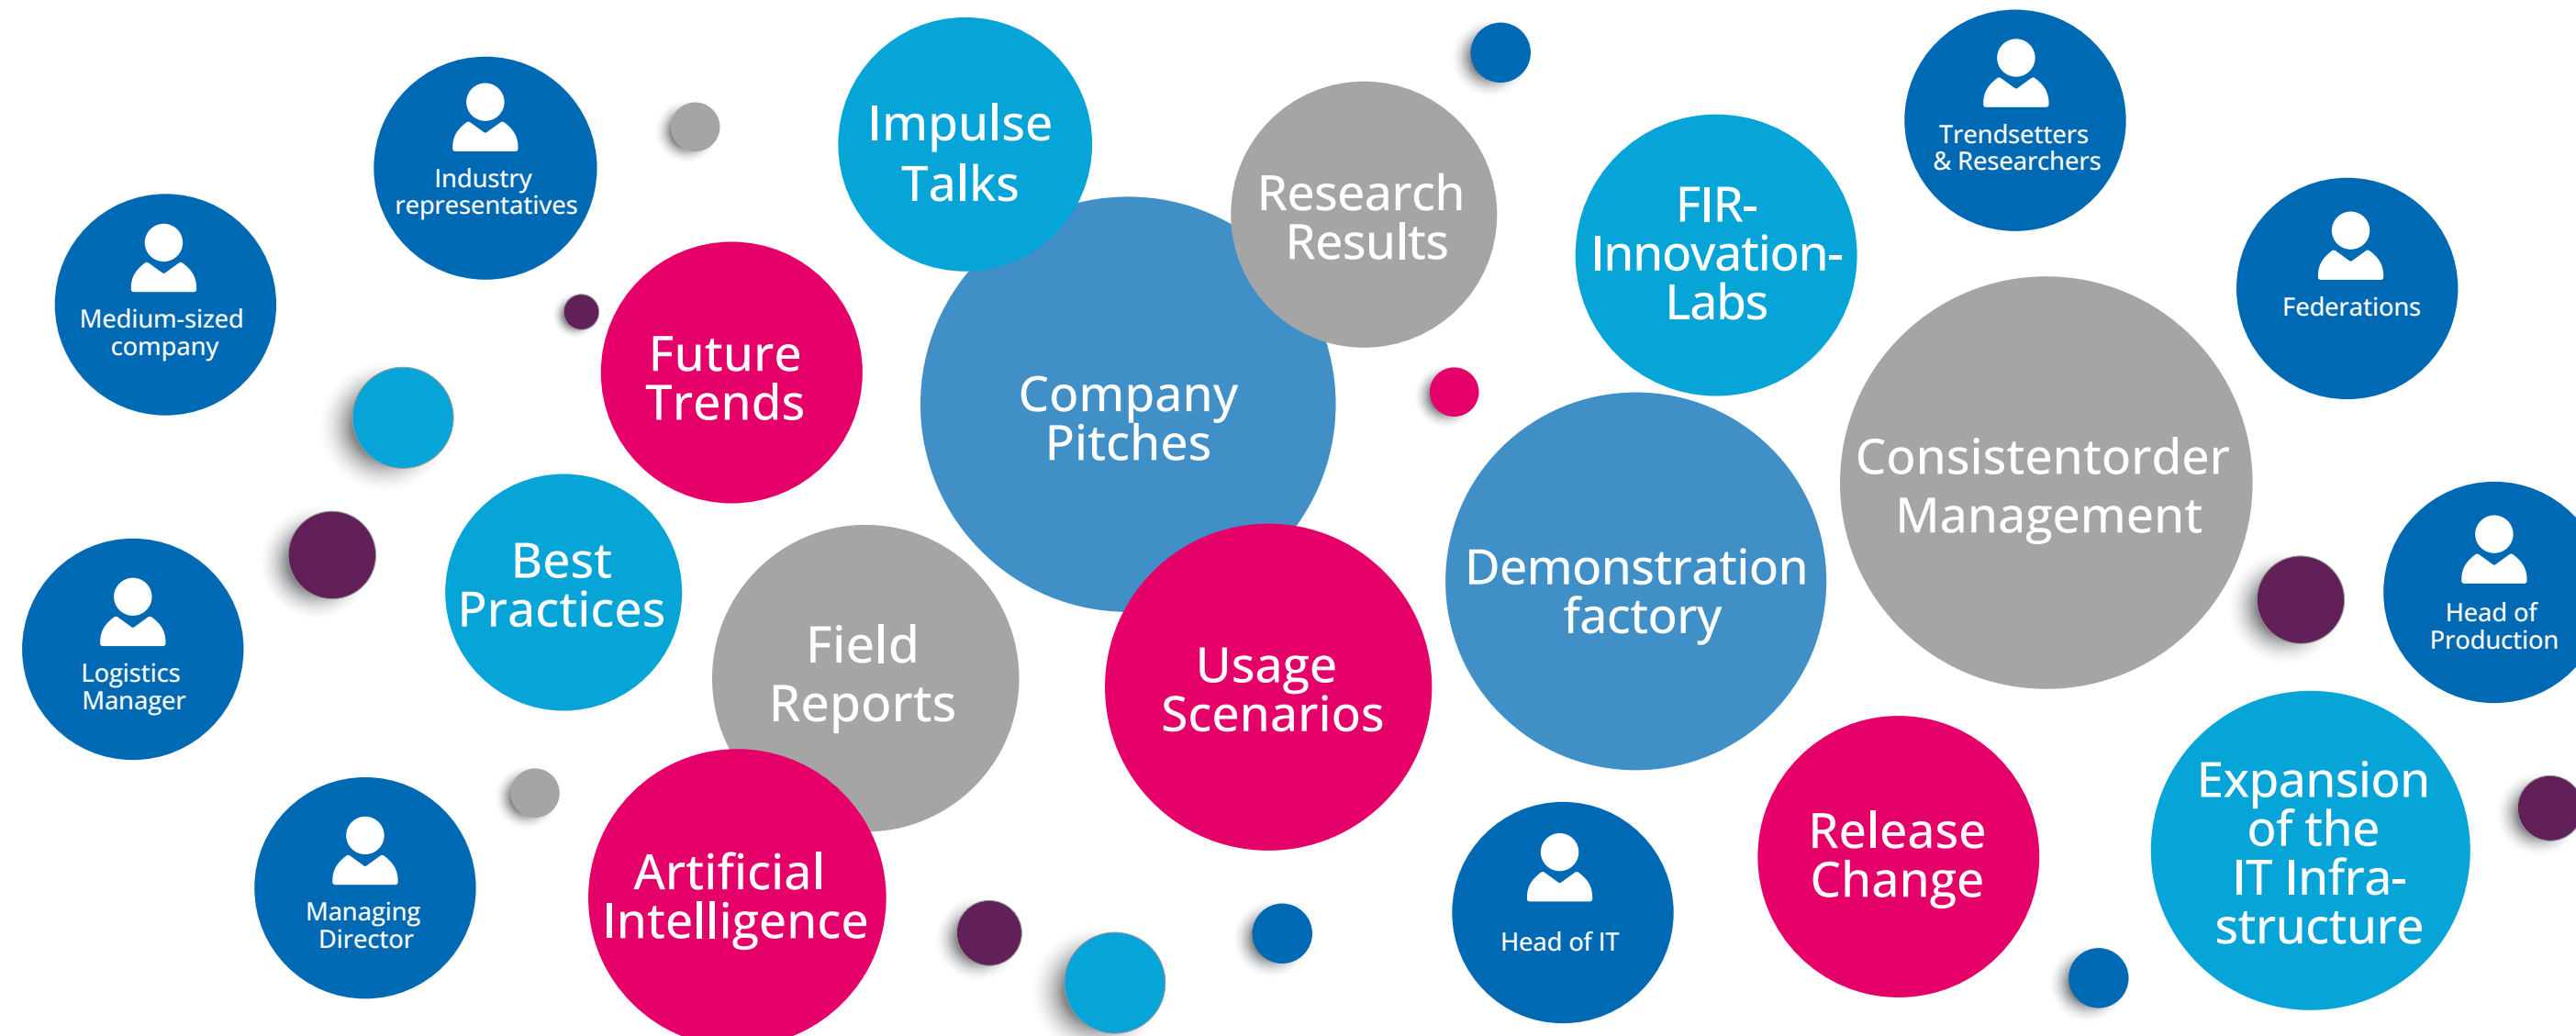

CDO Aachen 2024 is aimed at the Chief Digital Officer, the Chief Information Officer as well as innovation-driving project managers and impulse-giving executives with a pronounced enthusiasm for technology and all interested related professions. You can expect top-class speakers from research and industry at our symposium.

Join us and find out more about the latest developments and strategies in the field of artificial intelligence. Learn how companies can achieve long-term success through targeted AI strategies and which technologies are already creating significant added value today. You will also gain insights into how structures and processes can be adapted to accelerate and improve the integration of AI in your company.

## The Partner Pitches

Companies present technical solutions that support you in the implementation of your digitization strategy. We offer partners a prestigious platform to present their company, their service portfolio or the results of their research project to an interested audience. Open-minded forum participants are thus given the opportunity to find out about the latest state of the art and to receive individual advice.

## Topics and Stakeholders

# Program

## 10:00 Welcome & Moderation of the Day

Christian Hocken, Industrie 4.0 Maturity Center  
Max-Ferdinand Stroh, FIR e. V. an der RWTH Aachen

## 10:15 Keynote Speech 'Building the AI-driven Enterprise'

Christian Hocken, Industrie 4.0 Maturity Center  
Max-Ferdinand Stroh, FIR e. V. an der RWTH Aachen

## » Long-term Success with an AI Strategy «

### Exploring AI Opportunities and Use-Cases in the Semiconductor Industry

Derrick Wan, Elmos Semiconductor SE

### How to Anchor AI in Your Organization

Felix Schlenther, AI FIRST

### AI & HR – How Artificial Intelligence and HR are Support Each Other

Dr. Roscoe Araujo, Covestro AG

### AI @ Tax Department

Patrick Stasch, Viega GmbH & Co. KG

## 13:00 Lunch Break

## » AI Technologies for Value Creation «

### 13:30 Bringing ChatGPT to Your Workforce an Inside Perspective

Roland Cernat, Miba AG

### AI's Transformative Impact on the Industrial Enterprise: From Product Lifecycle to Strategic Value

Dr. Alexander Lemken, PTC Inc

### AI @ Shopfloor – Requirements, Challenges and Solutions

Dr.-Ing. Tobias Schlagenhaut, Bosch & Integraite

### From Bottom-up Exploration to Top-down Efficient Strategy Use Cases in AI at Continental

Dubravko Dolic, Continental Reifen GmbH

## » Processes to Accelerate AI «

### Cognitive Robots in AI driven Enterprises

Dr. Bernd Heinrichs, Neura Robotics

### Uncovering the Impact of AI in Manufacturing

Christian Kleih, Tulip Interfaces

### 'Spreading the Word – AI Literacy & Adoption at Siemens

Robert Lohmeyer, Siemens AG

### 15:30 Wrap-up

Christian Hocken, Industrie 4.0 Maturity Center  
Max-Ferdinand Stroh, FIR e. V. an der RWTH Aachen

### 15:45 End of Event

# Moderators

**Christian Hocken**  
*Managing Partner,*

# CDO Partners

Well-known key players of the industry present themselves as partners of the CDO Aachen and introduce their companies and service portfolios to you. Find out about products, software and solutions for the implementation of digital solutions in the company pitches and in the individual online rooms of our partners. Exchange ideas on your individual questions and get advice.

Would you like to present your range of services to a broad professional audience as a partner of CDO Aachen? In our partner brochure you will find all information about the possibilities of a partnership – from BASIC to PREMIUM to EXCLUSIVE. Choose the partnership package that suits you best and feel free to contact us.

# About FIR

The FIR is a non-profit, intersectoral research institute at the research institution at RWTH Aachen University in the field of business organization and corporate IT with the aim of creating the organisational foundations for the transformation of companies towards digitalisation and sustainability. With the research, development and transfer of innovative solutions, the FIR contributes to increasing the competitiveness of companies. This is done in the appropriate infrastructure of the Smart Logistics Cluster for experimental organizational research in a methodologically sound, scientifically rigorous manner and with the direct participation of experts from industry. Concrete industrial use cases are at the center of our consideration.

## FIR Knowledge-Base

The knowledge base at [fir.rwth-aachen.de](http://fir.rwth-aachen.de) (German) bundles all FIR information on current trend topics in digitization and networking.

# About Industrie 4.0 Maturity Center

**INDUSTRIE 4.0  
MATURITY CENTER**

The i4.0MC has been accompanying the manufacturing industry on its way into the digital age since 2017. The center was established on RWTH Aachen Campus to make the potential of the fourth industrial revolution visible with the "Industrie 4.0 Maturity Index" published by acatech. In addition, the center offers a comprehensive range of training courses to enable manufacturing companies to qualify their employees for the tasks involved in the digital transformation. In the future, the i4.0MC will further expand practical research together with the FIR at RWTH Aachen University. Integration into the ecosystem of the FIR at RWTH Aachen University as the leading institute in the Smart Logistics cluster creates synergies between research and practice and is the basis for the development of visionary solutions to future issues in digitized industry.
